

Hackarena

Deadline - 26th October, 7 pm

Hackathon Submission Format

1. GitHub Repositories (Public)

- **Frontend Repository** – Tech Stack: React / React Native / Angular / Flutter / Other
- **Backend Repository** – Tech Stack: Node.js + Express / Django / Flask / Spring Boot / Other
- ♦ Ensure both repositories are **public** and contain all relevant code, commits, and documentation.
- 🚫 **Commits made after the hackathon deadline will lead to disqualification.**

2. Deployed Link

- **Web Applications:** Submit a working deployed link (e.g., Render, Vercel, Netlify, etc.)
- **Mobile Applications:** Submit the APK file link via Google Drive (set link access to **Anyone with the link**)

4. Video Presentation

- Record a **5–10 min video** explaining:
 - 🎬 Project walkthrough (features + flow)
 - 💻 Code and deployment explanation
 - 📱 Demo of the working application
- Upload the video to **Google Drive** and share the link (public access)
- Recording via Zoom or any screen recorder is recommended

Evaluation Weightage

Category	Weight
 Codebase (Frontend + Backend)	90%
 Presentation + Documentation	10%
